

Пятый этап индивидуального проекта

Хусаинова Динара Айратовна

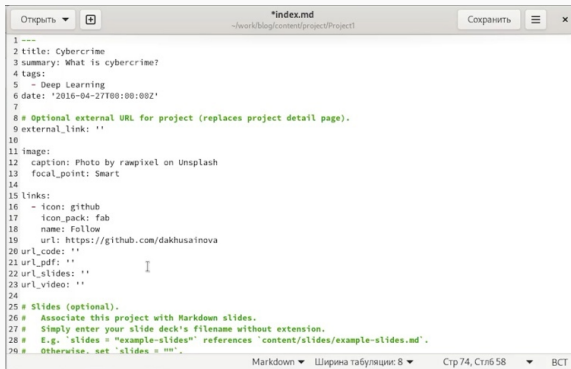

25.05.2022

RUDN University, Moscow, Russian Federation

5 этап Добавление к сайту остальных элементов

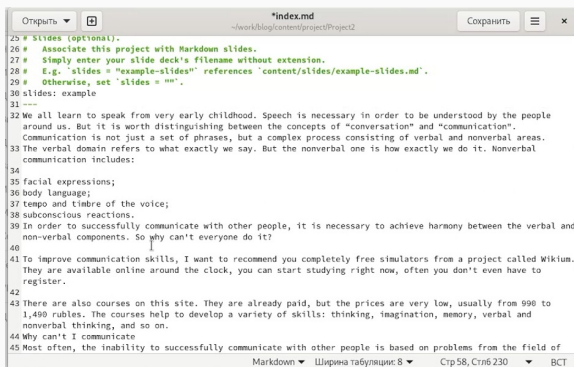

Добавить к сайту все остальные элементы(проекты).

Сделаем записи для персональных проектов. Для этого пройдем в папку Project в папке content, создадим две папки и отредактируем имеющийся файл формата md, также загрузим картинки(рис. 1,2).

31 ---
32 We all learn to speak from very early childhood. Speech is necessary in order to be understood by the people
33 around us. But it is worth distinguishing between the concepts of "conversation" and "communication".
34 Communication is not just a set of phrases, but a complex process consisting of verbal and nonverbal areas.
35 The verbal domain refers to what exactly we say. But the nonverbal one is how exactly we do it. Nonverbal
36 communication includes:
37
38 facial expressions;
39 body language;
40 tempo and timbre of the voice;
41 subconscious reactions.
42 In order to successfully communicate with other people, it is necessary to achieve harmony between the verbal and
43 non-verbal components. So why can't everyone do it?
44
45 To improve communication skills, I want to recommend you completely free simulators from a project called Wikium.
46 They are available online around the clock, you can start studying right now, often you don't even have to
47 register.
48
49 There are also courses on this site. They are already paid, but the prices are very low, usually from 990 to
50 1,490 rubles. The courses help to develop a variety of skills: thinking, imagination, memory, verbal and
51 nonverbal thinking, and so on.
52
53 Why can't I communicate
54
55 Most often, the inability to successfully communicate with other people is based on problems from the field of
```

Figure 2: Редактирование

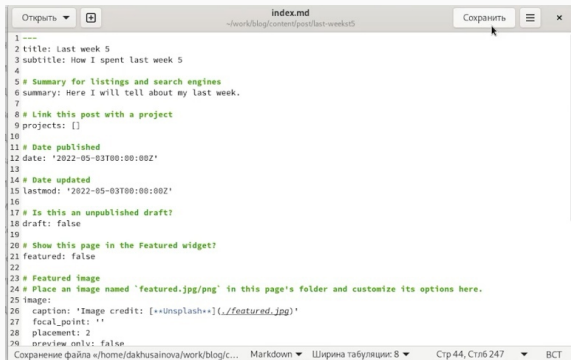

Находим папку `post`, создаем в ней папки для двух новых постов, займемся постом по языку программирования. Для этого откроем файл в скопированной папке и редактируем его под нашу тему, находим фотографию и вставляем ее в ту же папку. Тоже самое делаем для создания поста по прошлой неделе(рис. 3,4).
